# NMDOH in Health Systems

## Screening and Response

*Increased recognition on the importance and role of healthcare institutions to identify and respond to non-medical drivers of health*

*Requirements to screen for and respond to non-medical drivers of health are increasing*

*Tools for documenting non-medical drivers of health are improving*

Social Determinants of Health	
Caregiver Education and Work Oct 30, 2023: Low Risk	Financial Resource Strain Feb 7, 2023: Low Risk Feb 3, 2023: Medium Risk
Food Insecurity Nov 28, 2023: No Food Insecurity	Transportation Needs Feb 3, 2023: Unmet Transportation Needs
Housing Stability Jan 11, 2024: Low Risk Jan 5, 2024: High Risk

# Social Drivers: Direct Impact on Patient Health Outcomes

Persistent Health Challenges In The Southwest Houston Community – Community Survey

Those who are socioeconomically vulnerable, especially the uninsured, are less likely to use preventive and specialty care due to a variety of social and economic barriers. Understanding and addressing these barriers are key to improving population health.

48% of African Americans were unable to pay for food when needed in the past year

Unhealthy Food Habits

72% of Asian Americans reported that transportation kept them from seeking medical care

Inconsistent Routine Care

61% of Hispanic Americans are without health insurance

Inability to Afford Healthcare

64% of White Americans reported pollution as a big problem for their health

Susceptibility to Chronic Conditions

Nearly 1 in 3 people live below the Federal Poverty Level

64

# PHSO: Care Coordination Services for ACO Patients

Improve the health of a population by engaging patients and providers in making better choices about their health

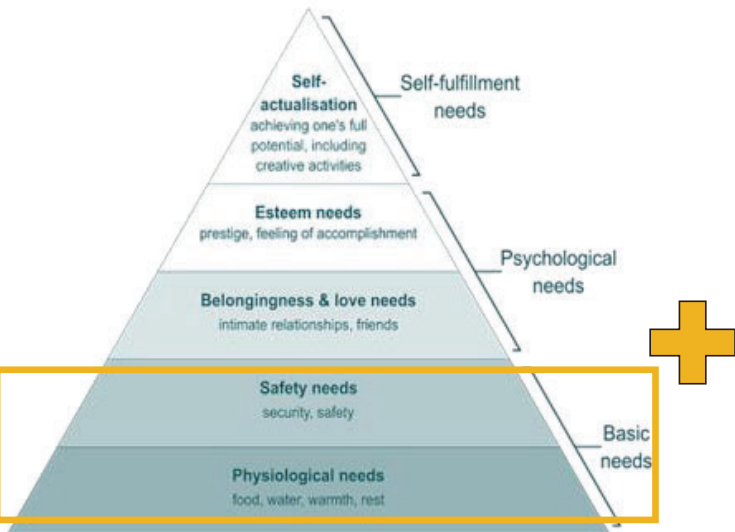

Focuses on prevention, early intervention(s), and close partnerships with patients and providers to tightly manage acute episodes, chronic conditions and psychosocial challenges

Support physical, mental and emotional well-being with a focus on social determinants of health (SDOH)

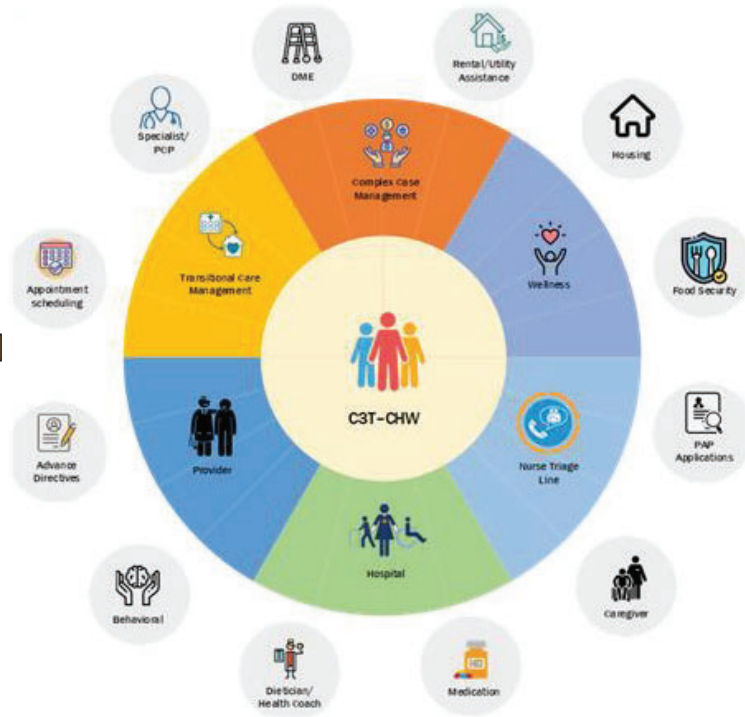

Provide the right care at the right time in the most cost-effective way without sacrificing high level care coordination

Optimize the patient's health and well-being so their future journey is better than today

# PHSO: Community Care Coordination Team (C3T) Model: Community Health Workers (CHWs)

**Maslow's Hierarchy of Needs**

Reduce barriers/challenges to receiving care

Increase health literacy and patient empowerment

Timely coordination of care

Indirect impact on reducing readmissions/avoidable EC visits/total cost of care

# PHSO: Community Care Coordination Team (C3T)

## Community Health Workers (CHWs)

Referral-based group that serves ACO (Accountable Care Organization) lives, handling intake, screening, and SDOH assessments.

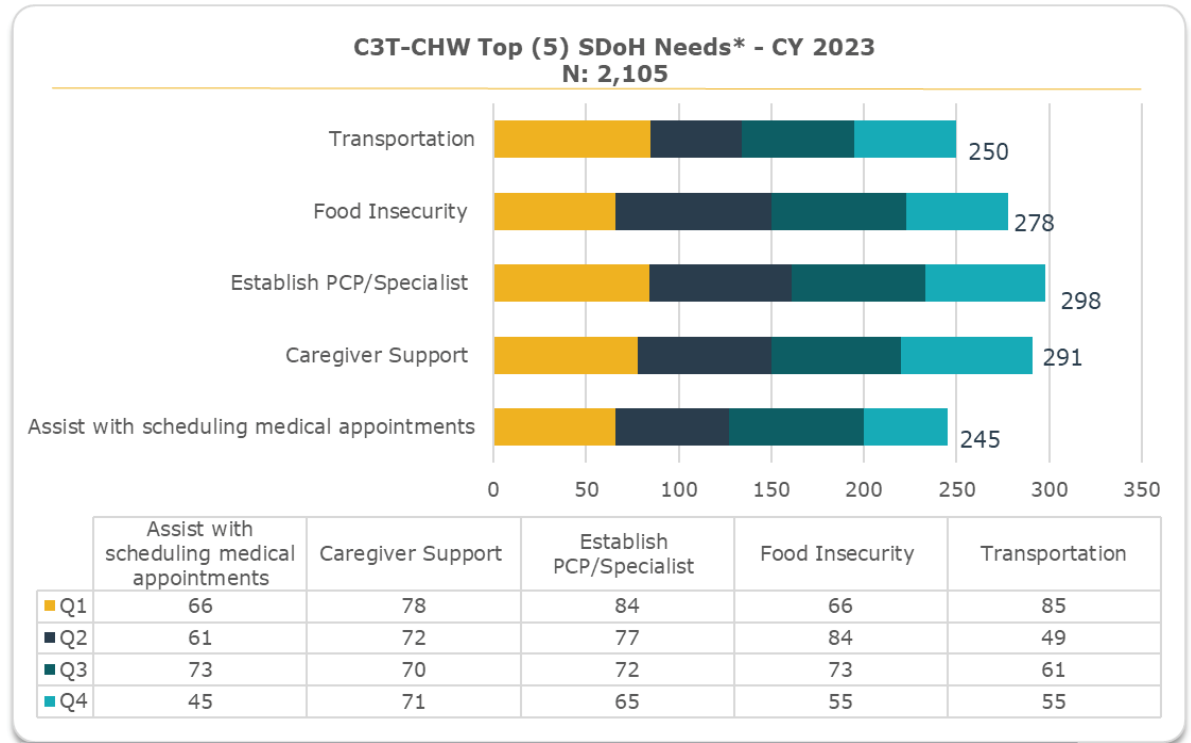

### **C3T-CHW: (6) FTEs**

- # of Patients Referred: **1,844**
- % Success Rate to Address Needs: **1002 (53%)**
- # of Interdisciplinary Referrals: **521**

### **Identifies and addresses access barriers and provides appropriate intervention.**

- Provides support to internal and external **clinical teams, physicians and patients**
- Engagement **between 14-21 days** depends on needs and follow-up

Advancing health. Personalizing care.

\*A patient can have more than 1 need based on outcome of SDOH assessment

\*This data represents the top five SDOH Needs out of 13; other SDOH challenges are addressed and tracked

\*\*Additional SDOH's Needs Provided by C3T-CHW Include: Application Assistance (PAP, SNAP), DME Support Pharmacy Support, Health Coach/Registered Dietician, Social Work Support, Assist with scheduling medical appointments.

## Screening and Responding to Non-Medical Needs at Texas Children's Hospital

Nancy Correa, DrPH  
Director, Population Health

# Texas Children's NMDOH Strategic Framework

## Texas Children's NMDOH Strategic Framework

**\$1 Billion**

in public benefits go unclaimed in Harris County

**15%**

of admitted patients at TCH are SNAP eligible, but not enrolled

**\$973**

monthly SNAP allowance for a family of four

**19**

number of pages to complete a public benefits application

# Screening for NMDOH

## Admitted Patients

Screening for food insecurity, housing stability, transportation, financial assistance, and caregiver education

## Texas Children's Pediatric Practices

Screening for food insecurity during check-in process for well-child visits

## Emergency Center

Screening for food insecurity begins in early 2025

## Ambulatory Clinics

Some clinics screening for NMDOH, system wide roll out in 2025

Social Determinants of Health	Positivity Rate
Food Insecurity	21%
Unstable Housing	23%
Financial Assistance Needs	37%
Unmet Transportation Needs	7%
Caregiver Education Needs	19%

# Social Determinants of Health

## Strategic Priorities

### Screening

Expand SDOH screening to increase our ability to identify family's social needs that impact health

### Responding: Internal Capacity

Strengthen our capacity to *meaningfully* respond when social needs are identified

### Responding: Community Connections

Strengthen our community partnerships and referral pathways

### Responding: Community Capacity

Strengthen our community's capacity to address social needs
